

WOMEN TRAINING BUSSINESS SKILLS

Kudos to Nairobi KAWAC team for Training the Nairobi Slums women on Business Skills.

In the wake of COVID-19, women were more financially vulnerable because they were more employed in sectors prone to layoffs during times of crisis (hospitality, travel, education, and retail; closures, thus exacerbating existing financial insecurity. This resulted into more demand for our services which were already hindered by covid19 policies

Thanks to Mrs. Surgut WICCI Kenya. We met sat next to each other and now this. Planning to train 2100 women on entrepreneurship in Kenya and 500 in Canada
