

About Us

KACB Worldwork Alliance Canada (KAWAC) is a Canadian not-for-profit committed to empowering communities and vulnerable groups while advocating for social justice and an end to discrimination, inequity, and healthcare disparity. We are dedicated to building a more equitable and inclusive society. We believe that true community strength lies in the well-being of every resident, and our work is focused on dismantling the systemic barriers that perpetuate inequality.

OUR MISSION

To empower individuals and communities to reach their full potential by actively engaging with residents, listening to their needs, and co-creating solutions. We champion social justice and advocate for policies that ensure fair access to resources, opportunities, and a voice in local decision-making.

Through collaborative projects, educational initiatives, and direct support programs, we strive to create a society where everyone has the chance to thrive. We are more than an organization; we are a community-driven movement working towards a future where equity is not just an ideal, but a reality.

MATERNAL AND CHILD CARE

- KAWAC provides vital information to help reduce maternal health risks, ensure Safe birth, lower the rates of child mortality, and prevent unplanned pregnancies.
- The goal is to ensure a positive and healthy experience for both the mother and child, reducing preventable illness and mortality.

Mental Health and Emotional Support:

We support groups and offer counseling for new parents dealing with postpartum depression, anxiety, or stress related to the challenges of parenthood.

PRENATAL & POSTNATAL

We run programs that offer prenatal and postnatal education, breastfeeding support, and parenting classes. These programs are free and culturally sensitive, making them accessible to marginalized groups.

RAISING PUBLIC AWARENESS

We also launch campaigns to educate the public on critical issues like preterm birth, maternal mortality, and infant health crises.

COMMUNITY CARE AND SUPPORT

We believe that a community is only as strong as its most vulnerable members. KAWAC is dedicated to championing a more equitable and inclusive future for all by actively breaking down the systemic barriers that hold people back.

Our task is to empower individuals and communities to reach their full potential. We do this by actively engaging with residents, listening to their needs, and co-creating solutions. We champion social justice and advocate for policies that ensure fair access to resources, opportunities, and a voice in local decision-making.

OUR OBJECTIVE

We are committed to serving the community at the front lines of the HIV/AIDS response. Our mission is to provide essential prevention, support, and advocacy, ensuring that marginalized and vulnerable populations have access to the care and resources they need.

TARGETED OUTREACH

Our programs provide essential HIV/AIDS education and prevention directly to communities most at risk. We specialize in creating tailored content for young people, racialized communities, (MSM) men who have sex with men, and people who use drugs, ensuring our message is relevant and effective for each group.

THERAPEUTIC & PEER SUPPORT

Our programs are designed to provide a lifeline. We offer therapeutic and peer support, including support groups and counseling, to reduce isolation and equip people with the tools to navigate the mental and emotional aspects of living with HIV.

HUMAN RIGHT ADVOCACY CAPACITY BUILDING

We empower individuals and communities with the knowledge, skills, and resources needed to champion human rights. Our goal is to create lasting change by equipping people to become agents of change, enabling them to identify injustice, speak out, and hold those in power accountable.

We run training programs, workshops, and seminars to educate community members on topics like

- **Human Rights Law:** The specific rights protected by national and international law.
- **Advocacy Skills:** Practical skills like public speaking, writing effective proposals and using social media for campaigns.
- **Toolkits and Guides:** We create easy-to-understand guides on how to file a human rights complaint or start a local campaign.

CLIMATE JUSTICE

We play a vital role in educating the public on climate justice.

Workshops and Community Forums: through holding workshops to help the community understand how climate change can affect their neighborhood. We focus on local issues like air pollution or the impact of extreme weather on housing.

Youth Engagement: We develop school programs and youth leadership initiatives that empower young people to become climate activists. The programs often use hands-on projects, like community gardening or advocating for clean energy at the local government level.

GENDER EQUALITY, DIVERSITY & INCLUSION

We advocate for equal access and opportunities and eradicating the barriers of discrimination towards women and other marginalized and vulnerable populations, such as disabled people, black and indigenous populations, people who identify as LGBTQ2S+, refugees and migrants.

Inclusion

We ensure that everyone feels they belong and are valued. We go beyond diversity by actively inviting people with different perspectives to participate and contribute to the community. We make sure that diverse individuals are not just present but are also respected, supported, and fully integrated into the community or organization.

We act as a bridge by hosting events, workshops, and dialogues that celebrate diversity and provide a safe space for people to share their experiences and learn from one another. This helps to build trust and understanding across different community groups.

Empowering Community Members:

Instead of just providing services, We empower community members by involving them in our decision-making process.
